Deciduous Trees

The trees we order have been several times transplanted and grown in nursery rows, far enough part to allow them to make strong, fibrous roots, thus insuring success in handling. We can furnish a number of fine, large specimen Deciduous Trees not mentioned. Write for prices or visit the Nurseries and examine the stock.

PAEONIES

The demand for the improved varieties of the Pæonia has been enormous these last few years. In brilliancy of color and perfection of bloom they almost equal the rose. It requires great vigilance and care to grow Roses, but the Pæonia when once planted, needs no further care, is perfectly hardy, and each succeeding year adds to its size and beauty. The vigorous habits, strong growth, freedom from diseases and insects, also add greatly to its value. No other flower is better adapted for large showy bouquets, as they are large and gorgeous and the foliage is varied from a light silvery to a deep green color.

A large bed of mixed varieties and colors make a grand show, as a choice selection will form a succession of bloom during three months. Our collection includes the best varieties, all large clumps. \$3.50 per 10, \$25.00 per 100.
